SPECIALIZING IN TRANSLATIONS, INTERPRETATIONS OR FACE TO FACE ENCOUNTERS, TUTORING, LANGUAGE INSTRUCTION, AND CULTURAL TRAINING

Businesses that are not communicating in the language their community or customer speaks could be losing out on up to 20 percent of their potential business. We live in a multicultural society and cannot afford communication gaps, misinterpretations or messages that are "lost in translation". Also, those of us in the translation business know that correctly converting messages from one language to another not only makes business sense, but also it can be a safety or liability issue.

Languages Available: Spanish, Polish, Russian, Mandarin, Hindi, Urdu, Arabic, Korean, Tagalog, German, and French.
